Dragon Ball Xenoverse 2

Mahmoud Metwally Year 7

Dragon Ball Xenoverse 2 is a game in the Dragon Ball Z franchise and is a sequel to Xenoverse 1.

Gameplay

Xenoverse 2 is a game that prides itself with gameplay that is really well thought out as you get to play in a 3d environment in a level of your choice. In Xenoverse 2, the game starts with you creating your own character in the game. You get to pick from 5 races :The Saijans,The Buus, The Namekians,the Earthlings and the Frieza race.

Roster: The game's roster is very huge with about 80 characters with more coming through free and paid D.L.C (downloadable content). The roster features all your favorite Dragon Ball Characters like Goku,Vegeta.

Music: The music is great as it features a lot of old tracks remixed in the game by the talented Steve Noki like 'Cha-la head Cha-la' or 'We got the Power' This is great as the first game featured very boring tracks while this will offer old memorable, nostalgic music that is great for fans.
